

GOLDEN RULES

NON NEGOTIATABLE SITE RULES

These rules apply to everyone , with NO exceptions

ZERO HARM

Always wear the correct PPE

Wear the correct PPE for the hazards and the site especially if you are doing high pressure water blasting.

Always report ALL accidents

Report immediately to your Supervisor and complete the paperwork – if we don't know about it we can't take steps to minimise these

Permit to Work

Always complete the Permit to Work for specified activities

Abide by the site specific rules

Be aware of the specific Health & Safety rules for each site

Traffic Management

You must have a plan to manage traffic and pedestrians on all work sites

Identify and control your hazards

Before you start work, complete your JSEAs and make sure controls are in place to manage hazards

Competency and Training

Only do jobs that you are trained for and have experience in. Don't know – Don't do.

You are responsible for your own safety – walk the talk and lead by example

Always ask yourself : What am I doing? What could go wrong? How can I make it safer?

Breaking these rules will result in disciplinary action which may include removal from site
